

MANUFACTURER & EXPORTERS OF SCAFFOLDING -  
FORMOWRK SYSTEM & ACCESSORIES

[www.vgcscaffolds.com](http://www.vgcscaffolds.com)

# About Us

Welcome to VGC Scaffolds, a trusted manufacturer and exporter of premium-quality scaffolding and formwork accessories. Our dedication to quality, precision, and customer satisfaction has helped us become a reliable partner for leading construction and infrastructure companies, while also expanding our presence across 10+ international markets.

At VGC Scaffolds, we recognize that every construction project has unique requirements. That is why we focus on custom manufacturing solutions, enabling us to design and produce products according to specific project needs and technical specifications. Our wide range of scaffolding accessories includes robust couplers, clamps, base plates, and other essential components, while our formwork accessories feature high-strength form ties, anchor bolts, and various construction fittings designed to support safe and efficient project execution.

Quality remains the foundation of our operations. We follow strict quality control procedures and adhere to international manufacturing standards to ensure that every product delivers durability, safety, and consistent performance on construction sites worldwide.

Our advanced manufacturing facilities are equipped with modern machinery and technology, allowing us to produce high-precision components with exceptional reliability. With strong technical expertise and a skilled workforce, we maintain strict attention to detail throughout the manufacturing process to ensure superior product quality.

Over the years, VGC Scaffolds has continued to grow through innovation, strong industry relationships, and a commitment to delivering value-driven solutions to clients around the globe.

## Our Vision

To become a globally recognized leader in scaffolding and formwork solutions by delivering innovative, high-quality, and customized products. At VGC Scaffolds, we strive to support the construction industry with reliable solutions that promote safety, efficiency, and long-term project success while building strong partnerships with clients around the world.

## STRONG SUPPORT FOR EVERY PROJECT

## OUR MISSION

At VGC Scaffolds, our mission is to deliver high-quality, customized scaffolding and formwork solutions that help clients build with confidence and precision. We are committed to maintaining the highest standards of safety, durability, and innovation in our manufacturing processes. Through reliable products, expert support, and strong customer relationships, we aim to support growth across the global construction industry.

# QUALITY ASSURANCE

At VGC Scaffolds, quality is the foundation of our success. We are committed to manufacturing products that meet and exceed international standards. Our strict quality control processes ensure that every product is durable, reliable, and safe, making us a trusted name in the scaffolding and formwork industry.

Our modern manufacturing facilities, advanced technology, and skilled workforce ensure precise and consistent product quality. Continuous investment in upgraded machinery and training helps us meet evolving industry demands and deliver superior construction solutions.

Quality at VGC Scaffolds is maintained at every stage, from raw material sourcing to final inspection. Our strong quality management system focuses on continuous improvement, ensuring reliable products that meet evolving client needs and industry standards.

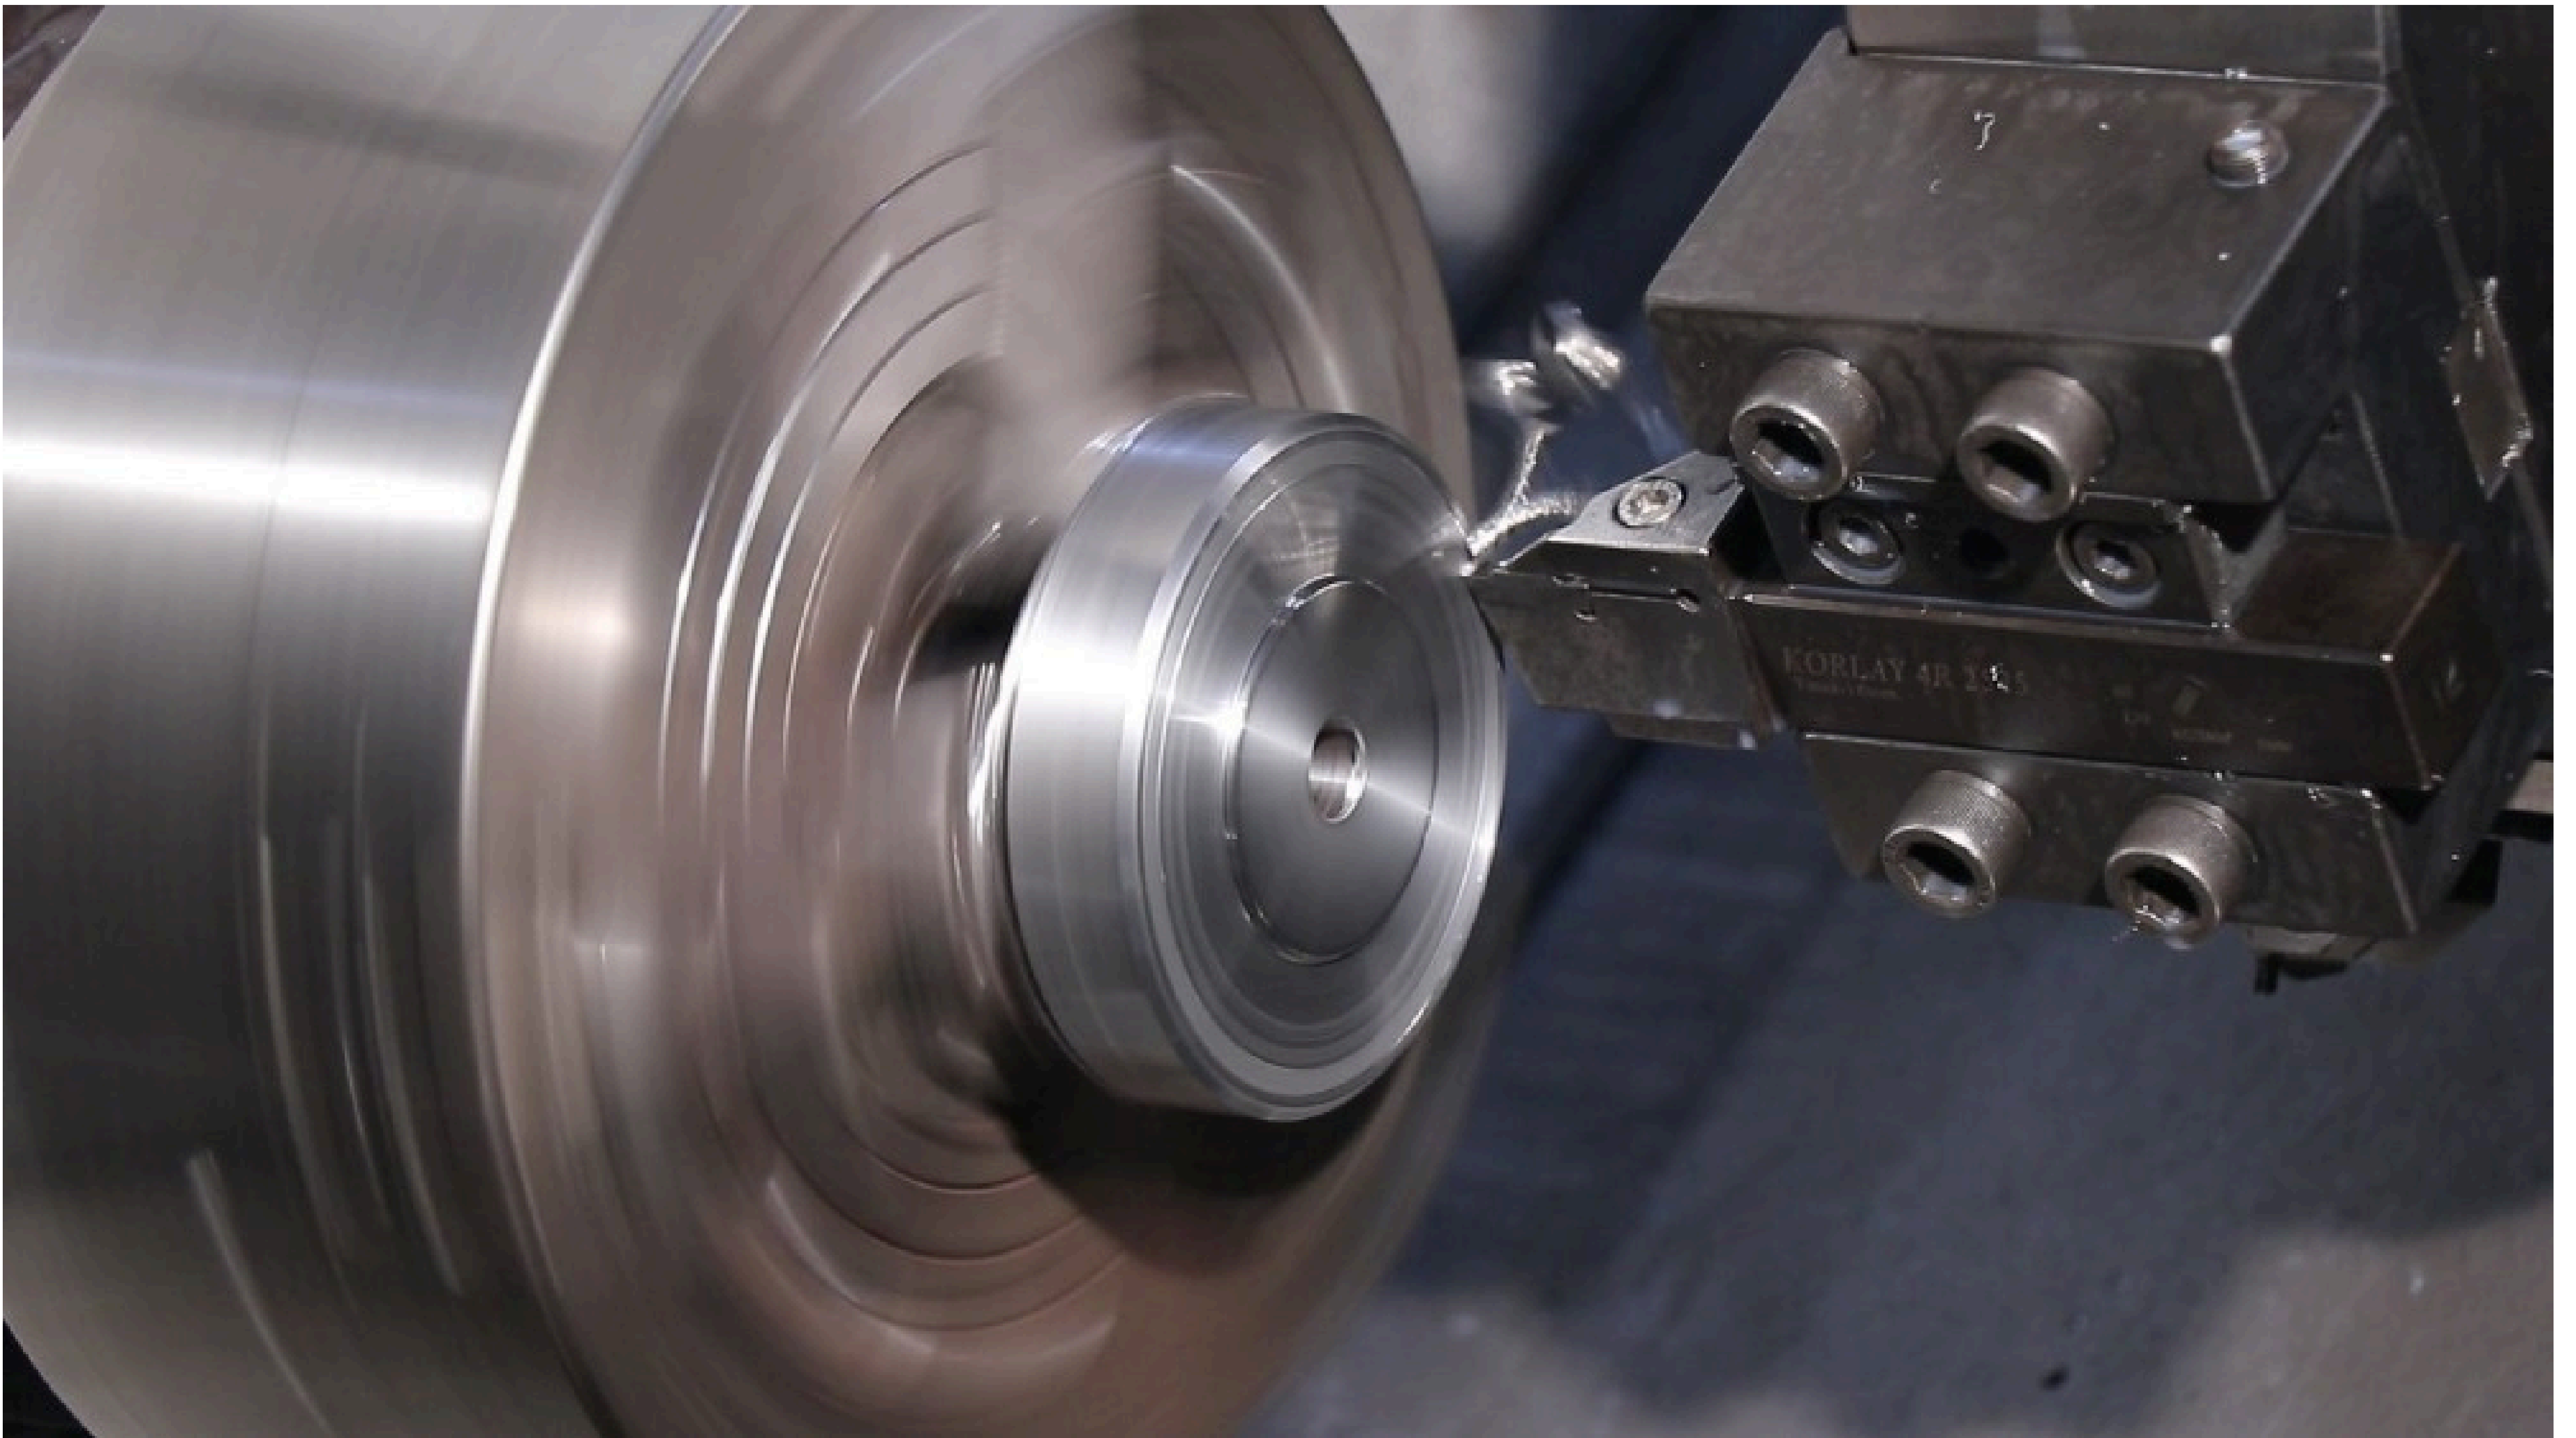

We also believe that quality includes exceptional customer service. By understanding each client's specific needs and offering customized solutions, we build long-term relationships and ensure our products consistently exceed expectations.

# INFRASTRUCTURE

At VGC Scaffolds, our modern infrastructure plays a crucial role in our ability to manufacture high-quality products. Our facilities are equipped with a wide range of advanced machinery and technology, enabling us to carry out various manufacturing processes with precision and efficiency.

We utilize advanced casting and forging equipment to produce strong and dependable components. Our machining processes ensure accurate specifications and high-quality finishes, while our heat treatment facilities improve the strength and durability of our products. In addition, our advanced welding techniques create firm and secure joints, ensuring the safety and reliability of our scaffolding and formwork accessories.

## HOLLOW SCREW JACK

Thread: 4 TPI

Tube OD: 32, 34, 38 mm

Length in mm: 300, 500, 600, 800, 1000

Plate Size: 150x150x5, 150x150x6 mm

Jack Nut: Casted and Forged

VGC-302

## SOLID SCREW JACK

Thread: 4 TPI

Tube OD: 32, 34, 38 mm

Length in mm: 300, 500, 600, 800, 1000

Plate Size: 150x150x5 mm

Jack Nut: Casted and Forged

VGC-304

## HOLLOW U HEAD JACK

Thread: 4 TPI

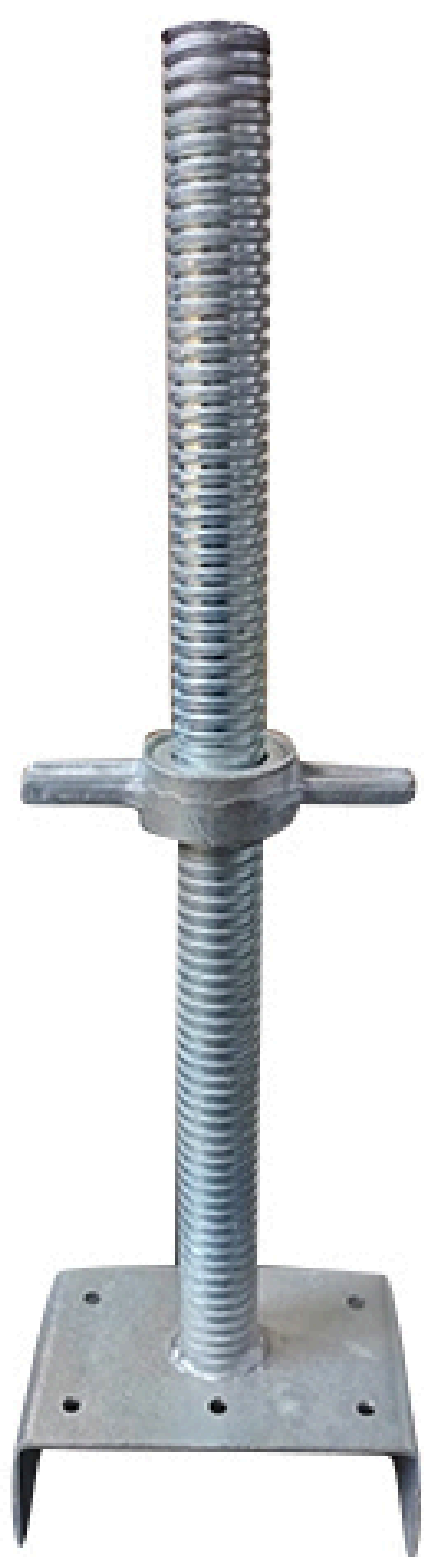

Tube OD: 32, 34, 38 mm

Length in mm: 300, 500, 600, 800, 1000

Plate Size: 150x100x75x5, 115x100x50x5 mm

Jack Nut: Casted and Forged

VGC-305

## SOLID FORKHEAD JACK

Thread: 4 TPI

Tube OD: 32, 34, 38 mm

Length in mm: 300, 500, 600, 800, 1000

Plate Size: 150x150x5 mm

Jack Nut: Casted and Forged

VGC-306

## SWIVEL SCREW JACK

Thread: 4 TPI

Tube OD: 32, 34, 38 mm

Length in mm: 300, 500, 600, 800, 1000

Plate Size: 150x150x5, 150x150x6 mm

Jack Nut: Casted and Forged

VGC-303

## ADJUSTABLE BASE JACK (FLOWER PLATE)

Thread: 38x4

Plate Size: 150x150x5/6 mm

Length in mm: 300, 500, 600, 800, 1000

Jack Nut: Casted and Forged

## ITALIAN PROPS

**Product Description:**

Outer Tube: 56 × 1.8 mm

Inner Tube: 48.3 × 1.8 mm

Plate Size: 120 × 120 × 4 mm

Material: S235, S355

ITEM CODE	LENGTH IN MTR.
VGC-401-A	VGC-401-A
VGC-401-A	1.5 – 2.0 M
VGC-401-B	1.7 – 2.5 M
VGC-401-C	2.0 – 3.5 M
VGC-401-D	2.5 – 4.0 M

## MEDIUM DUTY PROP

**Product Description:**

Outer Tube: 60 × 3.0 mm

Inner Tube: 48.3 × 3.2 mm

Plate Size: 120 × 120 × 5 mm

Material: S235, S355

ITEM CODE	LENGTH IN MTR.
VGC-402-A	1.5 – 2.0 M
VGC-402-B	1.7 – 2.5 M
VGC-402-C	2.0 – 3.5 M
VGC-402-D	2.5 – 4.0 M

## HEAVY DUTY PROP

**Product Description:**

Outer Tube: 60 × 3.2 mm

Inner Tube: 48.3 × 3.2 mm

Plate Size: 120 × 120 × 8 mm

Material: S235, S355

ITEM CODE	LENGTH IN MTR.
VGC-403-A	1.5 – 2.0 M
VGC-403-B	1.7 – 2.5 M
VGC-403-C	2.0 – 3.5 M
